SUMMARY

Aspiring Java Backend Developer with strong knowledge of Java, Spring Boot, Spring Data JPA, Hibernate, Spring Security, and Microservices. Skilled in developing REST APIs and implementing authentication and authorization, service discovery, and inter-service communication. Familiar with Apache Kafka and Redis for messaging and caching, with a strong foundation in OOP, DSA, SQL, and backend development.

EDUCATION

B.Tech in Information Technology

2021 – 2025

RCC Institute of Information Technology, Kolkata, West Bengal | CGPA: 7.93

Senior Secondary (Class XII)

2018 – 2020

Govt. (+2) High School, Munger, Bihar | Percentage: 82%

SKILLS

Programming Languages: Java, SQL, Python

Backend Development: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, JDBC, Servlets

Frontend Technologies: HTML, CSS, JavaScript, React, Bootstrap

Microservices: Eureka, Service Discovery, RestTemplate, Load Balancing

Databases: MySQL, Oracle

Core Concepts: Data Structures & Algorithms, MVC Architecture, OOP

Tools & Technologies: Git, GitHub, IntelliJ IDEA, Eclipse, Maven, Postman

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Time Management

PROJECTS

Banking Web Application

<https://github.com/shivam07cyberx/Bank-Application> 2026

Tech Stack: Java, SpringBoot, Rest APIs, Spring Security, Spring Data JPA, MySQL

- Built a secure Banking Web Application using Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, and MySQL.
- Designed and developed REST APIs for user registration, login, account creation, deposits, withdrawals, fund transfers, and transaction history.
- Secured banking endpoints with authentication and authorization through Spring Security.
- Integrated Spring Data JPA and Hibernate for database persistence and entity management.
- Added input validation, exception handling, and secure CRUD operations.
- Tested REST APIs using Postman before frontend integration.

Spring Boot Thymeleaf Book Management System

<https://github.com/shivam07cyberx/Book-Management-System> 2026

Tech Stack: Java, Spring Boot, Spring MVC, Spring Security, Spring Data JPA (Hibernate), Thymeleaf, MySQL, Bootstrap

- Built a full-stack Book Management System using Spring Boot, Thymeleaf, Spring Security, Spring Data JPA, Hibernate, and MySQL.
- Configured role-based access control for Admin and User with BCrypt password encryption.
- Developed Admin features for adding, updating, deleting, and searching books with inventory management.
- Enabled User features including registration, login, book browsing, search, and profile management.
- Secured URL access based on user roles and configured a custom login page.
- Integrated the application with MySQL through Spring Data JPA and Hibernate for ORM-based database operations

CERTIFICATIONS

- Java Certification – Udemy
- SQL Certification – HackerRank
- HackerRank: 4-Star Rating
- LeetCode: Solved 100+ Problems
- Naresh IT Mega AI Hackfest 2026 – Participant
